

- Book a car on Rentalcars.com, pay using your qualifying Visa credit or debit card and enjoy an instant 10% discount from the car rental price.

Business/Commercial cards are also eligible.
- Prepaid cards can be used for reservation and payment. However, at the time of pick-up, at the car rental desk, the main driver will need to show a credit card (prepaid or debit cards will not be accepted) to leave the deposit.
- Discount is calculated from the car price element of a car rental booking, i.e. excluding additional services and extras (insurance, additional driver fee, one-way fee, child seat, navigation devices etc.).
- No minimum spends on car rental booking required.
- To qualify for the discount, you must access Rentalcars.com website using the dedicated link <https://rentalcars.com/?affiliateCode=visainter999> on your bank's website, mobile app or marketing communication channels which advertise the offer. Direct bookings on www.rentalcars.com will not qualify for the discount.
- Discount only applies to online bookings and payments, not to "pay on arrival" bookings.
- Once the customer is on the checkout page and adds an eligible Visa card, the discount will automatically be applied in the price breakdown.
